<b>DEPTH</b>	13.25" (33.66cm)
<b>WEIGHT</b>	44 lbs. (20kg)
<b>FINISH</b>	 Australian Walnut

<sup>1</sup> Sensitivity in average listening room

## CELEBRATING 70 LEGENDARY YEARS

In celebration of Klipsch's 70th anniversary, exclusive limited-edition Heresy® speakers are being manufactured in exotic Australian Walnut wood veneer.

Australian Walnut (also known as Queensland Walnut) is grown in the coastal tablelands of North Queensland, Australia. The species varies in color, but is usually a pale-golden hue highly contrasted with darker streaks of chocolate brown, grey, black or even pink. Australian Walnut grain is moderately close and even, and sometimes wavy, resulting in a wide variety of figure effects.

## DESIGNED AND MADE IN THE USA USING DOMESTIC AND IMPORTED COMPONENTS

The Klipsch Heresy III speaker is a testament to the quality Klipsch demands from each and every one of its audio products. Remember great sound? We do, too. The Klipsch Heresy III enclosure is still made in the USA, by proud craftsmen in Hope, Arkansas. Just like Paul W. Klipsch (PWK) intended.

## FEATURES

### LIMITED EDITION

The 70th anniversary Heresy is limited to a production run of only 70 pairs of speakers. Each speaker features a small plaque identifying its numbered sequence in the series and was signed by the craftsman.

### COMPACT, THREE-WAY LOUDSPEAKER

The Heresy was originally introduced in 1957 as a compact three-way design utilizing a 12" woofer and horn-loaded midrange and tweeter. In 2006, the Heresy III was upgraded with a more powerful woofer, bi-wire network, as well as midrange and tweeter compression drivers, featuring a titanium diaphragm for smooth and accurate definition.

### NEW NAMEPLATE AND GRILLE

Each pair of Heresy's features a product nameplate mounted to a beautiful, silver luster grille cloth.

### NEW RISER

A matte-black slant riser base complements the Heresy's Australian Walnut wood veneer enclosure.

### BOOK-MATCHED WOOD VENEER

Klipsch only uses book-matched wood veneers for the Heritage series. The veneer leaves are kept in order as they are delicately sliced from the timber and precisely arranged to provide a mirror image at the splice joint - like turning the pages of a book. This gives each speaker an aesthetically appealing and consistent appearance that is treasured more than any other cut of wood veneer.

### MATCHED PAIRS

Each pair of Heritage Series loudspeakers are grain-matched using wood veneer panels that come from the same timber. Each cabinet is carefully matched so that each speaker in the pair is practically indistinguishable from the other. The speakers move seamlessly together through the factory. Each finished product is inspected and labeled with sequential serial numbers, ensuring that the Heritage series speakers leave the factory as a meticulously crafted set.
