

IC-650-T Mud Ring

- Simplifies drywall installations
- Heavy-duty, pre-construction design
- Each kit includes six rings (part #1010414)

This optional mud ring kit offers increased mounting flexibility for our IC-650-T 70-volt in-ceiling speaker when used in drywall applications. These pre-construction brackets are made of durable, powder-coated 20 gauge steel, making them suitable for plenum spaces. They attach to the ceiling joists prior to Sheetrock® installation and simplify speaker placement.
