

R-10B

Klipsch
REFERENCE

EASY PLUG AND PLAY SET UP WITH DOLBY® DIGITAL DECODING

The Klipsch Reference R-10B soundbar is designed to quickly connect to most TVs. An included digital optical cable connects to your TV's digital output to the back of the soundbar. For the few TVs without an optical audio output, there is a 2-channel analog input. Once connection to your TV is made, you just plug the soundbar into a standard electrical outlet and turn it on. The built-in Dolby Digital Decoder takes over and allows the Klipsch R-10B to automatically reproduce detailed, high-output sound in almost any size room no matter what format of sound is coming from the TV's output.

250W PEAK POWER OUTPUT

Provides quality sound for your favorite movies, shows, games and music.

TRUE 2-WAY SOUNDBAR

Two 3/4" horn loaded textile dome tweeters with 90° x 90° Tractrix® horns deliver crisp highs. Two 3" polypropylene woofers round out the enhanced sound with crisp vocals and dynamic soundtracks.

WIRELESS SUBWOOFER

With 8" side-firing driver and solid MDF cabinet with a slot-port design for deep, powerful bass.

COMPATIBLE WITH MOST BLUETOOTH® WIRELESS TECHNOLOGY ENABLED DEVICES

Including mobile phones, audio devices and computers for wide-ranging use.

APT™ AUDIO CODING TECHNOLOGY

Enables lossless, high-quality music streaming.

DOLBY® DIGITAL DECODER

Allows the soundbar to automatically reproduce detailed, high-quality sound no matter what format of sound is coming from the TV's output.

3-D SURROUND MODE

Delivers simulated surround sound for immersive listening.

2.4 GHZ TECHNOLOGY

Automatically connects the soundbar and subwoofer together wirelessly.

INPUTS

1 optical digital and 1 dual RCA analog.

REMOVABLE FEET AND KEYHOLE MOUNTS

Allows you set the soundbar in front of your television or mount it to the wall.
