The new KLIPSCH FORTE II is the second-generation of our highly acclaimed FORTE speaker system and represents a number of rather dramatic technological refinements.

With its new and unique midrange horn, a hybrid tractrix design, the FORTE II delivers your favorite music with incredible realism and detail. Your audition will reveal a smooth, well-extended response with tremendous image stability. Challenge the system with exceptionally dynamic music. Then hold your breath.

The cabinet, as beautiful as the music it reproduces, is hand-finished in your choice of beautiful wood veneers. Elegantly proportioned, the cabinets require very little floor space.

Inside and out, the new KLIPSCH FORTE II reflects your good taste in music and the art of its reproduction.
Working with tractrix equations, KLIPSCH engineers recently created this hybrid midrange horn which delivers smoother polar coverage in both horizontal and vertical planes. The stereo image now has greater width, depth, and stability. Power handling and sensitivity are increased. The sound is now larger, more open, and more detailed for even greater listening enjoyment.

One secret of the system's powerful, well-extended bass is found in the use of a rear-mounted sub-bass radiator. A mammoth 15" (38 cm) in size, this sub-bass radiator operates on acoustic pressure generated by the woofer for greater bass output and extension.

The cabinet of the FORTE II provides immediate evidence of construction quality. This cabinet is meticulously crafted from your choice of genuine wood veneers. Each pair is matched for color and grain structure of the wood. One tiny flaw and the entire pair is destroyed.

The FORTE II has a built-in riser base which lifts the system to the proper height for the optimum stereo effect, yet keeps the system coupled to the floor for maximum bass response.

Specifications:
- BANDWIDTH: 32 Hz-20 kHz ± 3 dB
- SENSITIVITY: 99 dB SPL, one watt one meter
- NOMINAL IMPEDANCE: 8Ω
- POWER HANDLING: 100 watts maximum continuous (500 watts peak)
- ENCLOSURE TYPE: Vented box (via sub-bass radiator), three-way system

DRIVE COMPONENTS:
- K-75-K tweeter
- K-61-K midrange
- K-25-K, 12" (30.5 cm) woofer
- KD-15, 15" (38 cm) sub-bass radiator

WEIGHT: 67 lbs/30.4 kg
DIMENSIONS:
- Height: 35-3/8" (89.9 cm)
- Width: 16-1/2 (41.9 cm)
- Depth: 12-1/4 (31.1 cm)
